

CHAPTER 18

The French Revolution and Napoleon 1789–1815

Section 1 The French Revolution Begins

Section 2 Radical Revolution

Section 3 The Age of Napoleon

MAKING CONNECTIONS

What makes a nation?

The Arc de Triomphe is one of the national symbols of France. It was commissioned by Napoleon in 1806 to commemorate his Grand Army. Can you name some other national symbols of France? In this chapter you will learn how France became a nation.

- What are some national symbols of the United States?
- What are the characteristics of a nation?
- What is nationalism?

- consumer (p. 577)
- exclusion (p. 581)

People and Events

- Louis XVI (p. 578)
- Tennis Court Oath (p. 579)
- Declaration of the Rights of Man and the Citizen (p. 581)
- Olympe de Gouges (p. 581)

Reading Strategy

Explaining As you read, use a diagram like the one below to help you study.

The year 1789 witnessed two far-reaching events: the beginning of a new United States of America and the beginning of the French Revolution. Compared with the American Revolution, the French Revolution was more complex and more radical. The French Revolution established both a new political order and a new social order. For that reason, it is considered a turning point in European history.

Background to the Revolution

MAIN IDEA The Third Estate, the vast majority of the French people, was heavily taxed and discontented.

HISTORY & YOU What if you had no say in family concerns despite doing all the household chores? Learn how the French people reacted to having no say in their government.

French society had changed little since medieval times. Feudalism established the privileges and obligations of the three main social classes. Although there were clergy and wealthy landowners in the American colonies, there were no laws giving them special status, unlike the class system in France. This social injustice caused unrest in eighteenth-century France.

France's Three Estates

Since the Middle Ages, France's population had been divided by law into one of three status groups, or **estates**. The First Estate consisted of the clergy, the Second Estate the nobles, and the Third Estate everyone else. Thus the Third Estate included anyone from the lowliest peasant to the wealthiest merchant.

The First Estate, or clergy, numbered about 130,000 out of a total population of 27 million and owned about 10 percent of the land. The clergy were radically divided. The higher clergy—cardinals, bishops, and heads of monasteries—were from noble families and shared their outlook and interests. The parish priests were often poor and from the class of commoners.

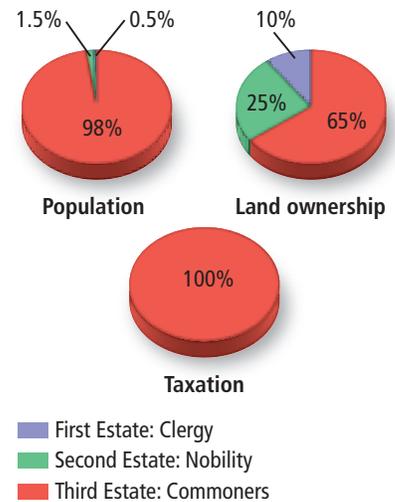

The Second Estate, or nobility, numbered about 350,000 and owned about 25 to 30 percent of the land. They played a crucial role in society in the 1700s. They held leading positions in the government, in the military, in the law courts, and in the Roman Catholic Church. Despite controlling most of the wealth of the kingdom, neither the clergy nor the nobles had to pay the **taille** (TAH•yuh), France's chief tax.

France's Three Estates

The Three Estates in Pre-Revolutionary France

DOCUMENT-BASED QUESTIONS

Posters of the Three Estates, like the one shown here, were displayed in France in the late 1700s.

1. **Explaining** Which estate is being crushed by taxes in the image on this poster?
2. **Analyzing** Which estate contained the majority of people in France? How could the situation shown in the poster lead to revolution?

Unlike the First and Second Estates, the Third Estate was divided by vast differences in occupation, level of education, and wealth. Peasants made up 75 to 80 percent of the Third Estate and owned about 35 to 40 percent of the land; middle-class members of the Third Estate owned the rest. At least half of the peasants had little or no land to live on.

All peasants owed certain duties to the nobles, which were a holdover from medieval times when serfdom was widespread. For example, a peasant had to pay a fee to

grind his flour or press his grapes because the local lord controlled the flour mill and wine press. When the harvest time came, the peasant had to work a certain number of days harvesting the noble's crop. Peasants fiercely resented these duties.

Another part of the Third Estate consisted of urban craftspeople, shopkeepers, and workers. These people, too, were struggling to survive. In the 1700s, the price of **consumer** goods increased much faster than wages, which left these urban groups with decreased buying power.

The struggle for survival led many of these people to play an important role in the revolution, especially in Paris.

The **bourgeoisie** (BURZH•WAH•ZEE), or middle class, was another part of the Third Estate. This group included about 8 percent of the population, or 2.3 million people. They owned about 20 to 25 percent of the land. The bourgeoisie included merchants, bankers, and industrialists, as well as professional people—lawyers, holders of public offices, doctors, and writers.

The middle class was unhappy with the privileges held by nobles. They did not want to abolish the nobility, however, but to better their own position. Some bourgeoisie had managed to become nobles by being appointed to public offices that conferred noble status. About 6,500 new nobles had been created by appointment during the 1700s.

The bourgeoisie also shared certain goals with the nobles. Both were drawn to the new political ideas of the Enlightenment. In addition, both groups were increasingly upset with a monarchical system resting on privileges and on an old and rigid social order. The opposition of these elites to the old order led them to take drastic action against the absolute monarchy of **Louis XVI**.

Financial Crisis

Social conditions, then, formed a long-standing background to the French Revolution. The immediate cause of the revolution was the near collapse of the French budget. Although the economy had been expanding for fifty years, there were periodic crises. Bad harvests in 1787 and 1788 and a slowdown in manufacturing led to food shortages, rising prices for food, and unemployment. One English traveler commented on the misery of French peasants:

PRIMARY SOURCE

“All the country girls and women are without shoes or stockings; and the plowmen at their work have neither shoes nor stockings to their feet. This is a poverty that strikes at the root of national prosperity.”

—an English traveler in France

On the eve of the revolution, the French economy was in crisis. Despite these problems, the French king and his ministers continued to spend enormous sums of money on wars and court luxuries. The queen, Marie Antoinette, was especially known for her extravagance and this too caused popular resentment. When the government decided to spend huge sums to help the American colonists against Britain, the budget went into total crisis.

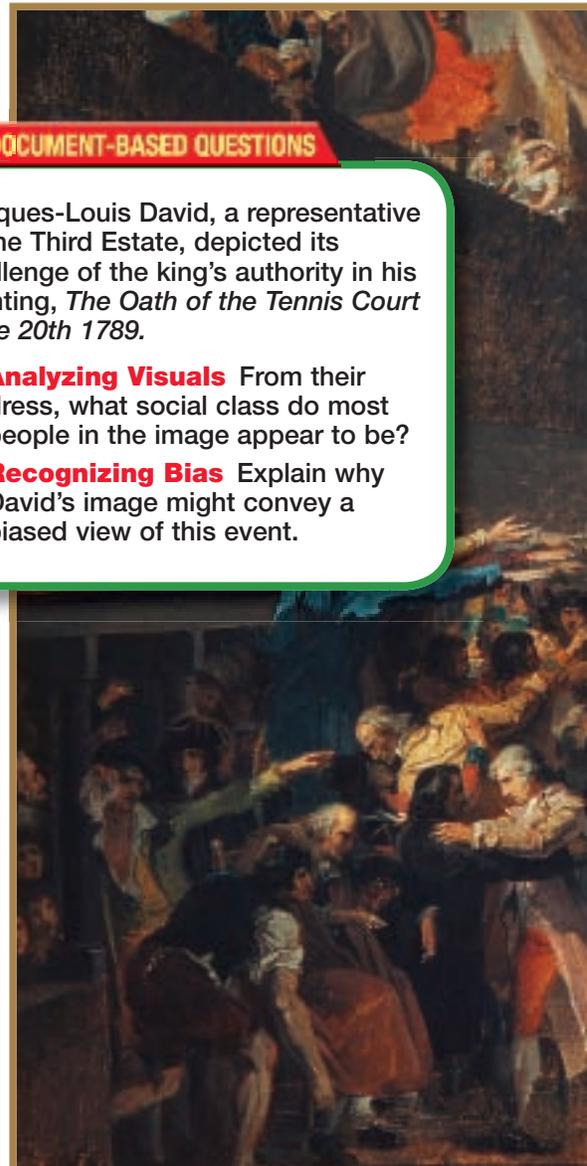

With France on the verge of financial collapse, Louis XVI was forced to call a meeting of the Estates-General, representatives of all three estates meeting together, to raise new taxes. The Estates-General had not met since 1614 because French kings were so powerful.

✓ Reading Check **Identifying** What groups were part of the Third Estate?

DOCUMENT-BASED QUESTIONS

Jacques-Louis David, a representative of the Third Estate, depicted its challenge of the king’s authority in his painting, *The Oath of the Tennis Court June 20th 1789*.

1. **Analyzing Visuals** From their dress, what social class do most people in the image appear to be?
2. **Recognizing Bias** Explain why David’s image might convey a biased view of this event.

From Estates-General to National Assembly

MAIN IDEA The Third Estate claimed the right to have its votes count as much as those of the First and Second Estates.

HISTORY & YOU Have you heard about a riot and wondered what made people take to the streets? Learn why Parisian workers rioted in the summer of 1789.

Louis XVI called a meeting of the Estates-General at Versailles on May 5, 1789. In the Estates-General, the First and Second Estates each had about 300 representatives. The Third Estate had almost 600 representatives. Most of the Third Estate wanted to set up a constitutional government that would make the clergy and nobility pay taxes, too.

From the start, there were arguments about voting. Traditionally, each estate had one vote—the First and Second Estates could outvote the Third Estate two to one. The Third Estate demanded instead that each deputy have one vote. Under this new system, with the help of a few nobles and clerics, the Third Estate would then have a majority vote. The king stated that he favored the current system.

On June 17, 1789, the Third Estate boldly declared that it was the National Assembly and would draft a constitution. Three days later, on June 20, its deputies arrived at their meeting place, only to find the doors had been locked. They then moved to a nearby indoor tennis court and swore that they would continue meeting until they had a new constitution. The oath they swore is known as the **Tennis Court Oath**.

PRIMARY SOURCE

HISTORY & ARTS

Tennis Court Oath

When the 600 delegates were locked out of Versailles, they walked to a nearby tennis court where they swore to meet until they had a constitution.

Bailly, the National Assembly's president, led the Tennis Court Oath.

Some clergy and nobles joined in the Oath.

Louis XVI prepared to use force against the Third Estate. On July 14, 1789, about 900 Parisians gathered in the courtyard of the Bastille (ba•STEEL)—an old fortress, used as a prison and armory. The price of bread had reached record highs so the crowd was hungry and agitated. According to rumor, the king’s troops were coming, and there was ammunition in the Bastille. A group of attackers managed to lower the two drawbridges over the moat. Members of the French Guard joined the attack. After four hours of fighting, the prison warden surrendered. The rebels released the seven prisoners and cut off the prison warden’s head. Angered that there were no munitions, the crowd demolished the Bastille brick by brick. Paris was abandoned to the rebels.

When King Louis XVI returned to his palace at Versailles after a day of hunting, the duc de la Rochefoucauld-Liancourt told him about the fall of the Bastille. Louis is said to have exclaimed, “Why, this is a

revolt.” “No, Sire,” replied the duke. “It is a revolution.”

Louis XVI was informed that he could no longer trust royal troops to shoot at the mob. The king’s authority had collapsed in Paris. Meanwhile, all over France, revolts were breaking out. Popular hatred of the entire landholding system, with its fees and obligations, had finally spilled over into action.

Peasant rebellions became part of the vast panic known as the Great Fear. The peasants feared that the work of the National Assembly would be stopped by foreign armies. Rumors spread from village to village that foreign troops were on the way to put down the revolution. The peasants reacted by breaking into the houses of the lords to destroy the records of their obligations.

✓ Reading Check **Examining** Why did the Third Estate object to how votes were counted in the Estates-General?

HISTORY & ARTS

PRIMARY SOURCE

The King Concedes

The women marched fifteen miles from Paris to Versailles.

Unlike the rest, this woman is not dressed like Parisian women of the Third Estate.

Many of the women carried weapons abandoned by the French Guard after they sided with the rebels.

DOCUMENT-BASED QUESTIONS

To Versailles, to Versailles, an 18th-century engraving, depicts French women on their way to confront Louis XVI.

1. **Making Inferences** What was the role of women in the French Revolution?
2. **Drawing Conclusions** What was the purpose of engravings like this?

End of the Old Regime

MAIN IDEA The National Assembly affirmed the “rights of man” and set up a limited monarchy in the Constitution of 1791.

HISTORY & YOU How did George III react to the Declaration of Independence? Read how Louis XVI reacted to the events of 1789.

The National Assembly reacted to news of peasant rebellions and rumors of a possible foreign invasion. On August 4, 1789, the National Assembly decided to abolish all legal privileges of the nobles and clergy.

Declaration of the Rights of Man

On August 26, the National Assembly adopted the **Declaration of the Rights of Man and the Citizen**. Inspired by the English Bill of Rights of 1689 and by the American Declaration of Independence and Constitution, this charter of basic liberties began with “the natural and imprescriptible rights of man” to “liberty, property, security, and resistance to oppression.”

Reflecting Enlightenment thought, the declaration proclaimed that all men were free and equal before the law, that appointment to public office should be based on talent, and that no group should be exempt from taxation. Freedom of speech and of the press were affirmed.

The declaration raised an important issue. Should equal rights include women? Many deputies agreed, provided that, as one man said, “women do not hope to exercise political rights and functions.” One writer, **Olympe de Gouges**, refused to accept this **exclusion** of women. Echoing the words of the official declaration, she wrote:

PRIMARY SOURCE

“Believing that ignorance, omission, or scorn for the rights of woman are the only causes of public misfortunes and of the corruption of governments, the women have resolved to set forth in a solemn declaration the natural, inalienable, and sacred rights of woman in order that this declaration, constantly exposed before all the members of the society, will ceaselessly remind them of their rights and duties.”

—from *Declaration of the Rights of Woman and the Female Citizen*, Olympe de Gouges, 1791

The King Concedes

In the meantime, Louis XVI remained at Versailles. Used to the absolutist system, he stubbornly refused to accept the National Assembly’s decrees. On October 5, however, thousands of Parisian women—described by an eyewitness as “detachments of women coming up from every direction, armed with broomsticks, lances, pitchforks, swords, pistols and muskets”—marched to Versailles. Some of the women then met with the king. They told him that their children were starving because there was no bread. These women forced Louis to accept the new decrees.

Now the crowd insisted that the king and his family come to Paris to show support for the National Assembly. If the king was not under their close watch, they feared he would rouse the kings and princes from other countries to oppose reform.

On October 6, the king and his family returned to Paris. As a goodwill gesture, they brought wagonloads of flour from the palace storehouse. They were escorted by women who chanted: “We are bringing back the baker, the baker’s wife, and the baker’s boy.” The king, the queen, and their son were now virtual prisoners in Paris.

Church Reforms

Under the old regime, the Catholic Church had been an important pillar of the social and political system. The revolutionaries felt they had to reform it too. The new revolutionary government had another serious motivation, however: the need for money. By seizing and selling off Church lands, the National Assembly was able to increase the state’s revenues.

Finally, the Church was formally brought under the control of the state. A law was passed called the Civil Constitution of the Clergy. It said that bishops and priests were to be elected by the people, not appointed by the pope and the Church hierarchy. The state would also pay the salaries of the bishops and priests. Because of these changes, many Catholics became enemies of the revolution.

See page R43 to read excerpts from Olympe de Gouges’s *Declaration of the Rights of Woman and the Female Citizen* in the **Primary Source and Literature Library**.

New Constitution and New Fears

The new Constitution of 1791 set up a limited monarchy. There was still a king, but a Legislative Assembly would make the laws. The new body was designed to be conservative. First, only the so-called “active” citizens—men over 25 who paid a certain amount of taxes—could vote. All others were considered “passive” citizens with equal rights but no vote. Second, the method of choosing its 745 deputies meant that only relatively wealthy people would serve. Not only the clergy, but also government officials and judges, would be elected. Local governments were put in charge of taxation. The influence of the new government began to spread throughout France.

By 1791, the “ancien régime,” or old order, had been destroyed, but the new

government did not have universal support. Political radicals and economically disadvantaged people wanted more reform. The king detested the new government’s regulation of the Church and his loss of absolute power. While Louis resisted the new constitution, family members and advisers urged him to take more action.

In June 1791, the royal family attempted to flee France in disguise. They almost succeeded in reaching allies in the east, but they were recognized and were captured at Varennes and brought back to Paris. In this unsettled situation, the new Legislative Assembly met for the first time in October 1791 and amended the constitution to allow for trying the king if he turned against the nation. Although Louis XVI publicly swore to uphold the new constitution, the constitutional monarchy seemed already doomed.

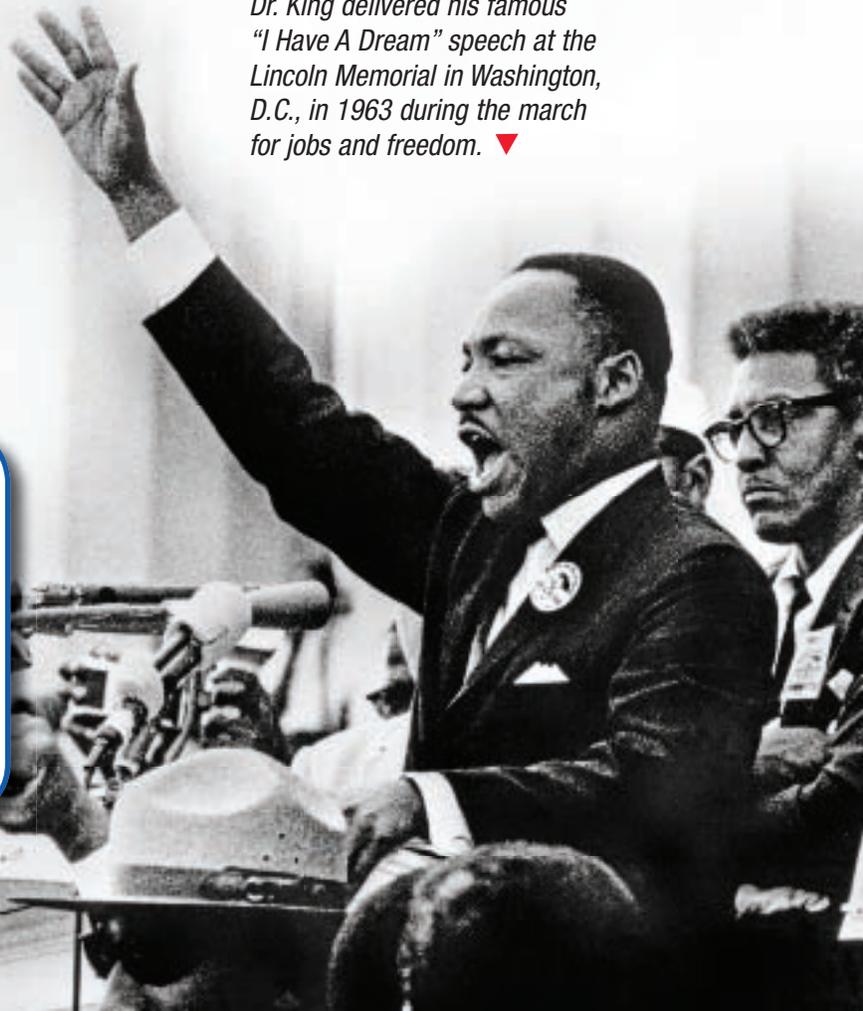

CONNECTING TO THE UNITED STATES

REVOLUTIONARY IDEAS

Dr. Martin Luther King, Jr., was an important spokesman for the civil rights movement in the United States in the 1960s. The purpose of the civil rights movement was to gain equal rights for African Americans. These were the same rights that the French Third Estate had fought for nearly 200 years earlier. However, Dr. King advocated nonviolent protest to accomplish these goals.

- All men are created equal
- All men have basic rights to liberty, property, and life

Dr. King delivered his famous “I Have A Dream” speech at the Lincoln Memorial in Washington, D.C., in 1963 during the march for jobs and freedom. ▼

CONNECTING TO TODAY

1. **Comparing and Contrasting** What are some similarities and differences between the American civil rights movement and the French Revolution?
2. **Making Inferences** Why could a nonviolent approach to change succeed in the United States in the 1960s, but not in France in the late 1700s?

War with Austria

Over time, some European leaders began to fear that revolution would spread to their countries. The rulers of Austria and Prussia even threatened to use force to restore Louis XVI to full power. Insulted by this threat and fearing attack, the Legislative Assembly decided to strike first, declaring war on Austria in the spring of 1792. The French fared badly in the initial fighting. A frantic search for scapegoats began. One observer in France noted:

PRIMARY SOURCE

“Everywhere you hear the cry that the king is betraying us, the generals are betraying us, that nobody is to be trusted; . . . that Paris will be taken in six weeks by the Austrians. . . . We are on a volcano ready to spout flames.”

—An observer, 1792

Rise of the Paris Commune

In the spring of 1792, angry citizens demonstrated to protest food shortages and defeats in the war. In August, Paris radicals again decided the fate of the revolution. They declared themselves a commune—a popularly run city council—and organized a mob attack on the royal palace and Legislative Assembly.

The French Revolution was entering a more radical and violent stage. Members of the new Paris Commune took the king captive. They forced the Legislative Assembly to suspend the monarchy and to call for a National Convention. This time they wanted a more radical change. All the representatives who would decide the nation’s future would be elected through universal male suffrage, in which all adult males had the right to vote. This would broaden the group of voters to include men who did not meet the initial standards for citizenship established by the Assembly.

Many members of the Paris Commune proudly called themselves **sans-culottes**, meaning “without breeches.” They wore long trousers, not the knee-length breeches of the nobles, which identified them as ordinary patriots without fine clothes. Often, sans-culottes are depicted as poor workers, but many were merchants or artisans—the elite of their neighborhoods. The revolution was entering a more radical phase because of the threat of foreign intervention to reestablish the monarchy and because economic conditions in France showed little improvement. This led to calls for new measures to be taken to secure the future of the revolution and improve the living conditions of the people in France.

A Revolution In Clothing

Throughout history, clothing has communicated a person's social status, age, gender, marital status, and ethnicity. Before the French Revolution, some of the Third Estate tried to dress like the nobility. After the revolution, as the Third Estate gained power, their clothing became the style to copy.

SECOND ESTATE

Wigs or hair were layered into powdered curls. Sometimes a hat with feathers was pinned on top.

Hats were worn on top of elaborate wigs or carried as an accessory.

According to the sumptuary laws, only noblemen could carry swords.

Hoops, crumpled paper, or padding was used to enlarge and fluff the skirt.

Noblemen wore knee-length, tight-fitting breeches. Both men and women wore silk stockings.

Only nobility could wear satin, lace, and fur according to the sumptuary laws.

SUMPTUARY LAWS

Before the French Revolution outlawed social classes, sumptuary laws dictated which materials, styles, and accessories could be worn by each estate. Even poorer nobles, who did not have many clothes, dressed in expensive fabrics. The bourgeoisie, wealthier members of the Third Estate, tried to imitate the style of the Second Estate. Only the sumptuary laws prevented the bourgeoisie from "impersonating" a member of the nobility.

THIRD ESTATE

Blue, white, and red were symbolic colors of the revolution. It was patriotic to wear the *bonnet rouge*, or red cap, with a circular badge known as a tricolor cockade.

Women of the Third Estate wore a hat with a badge and their hair loose.

Revolutionary women wore man-styled jackets over their dresses.

Practical fabrics and plain styles replaced expensive fabrics and fussy styles.

Revolutionaries made a political statement by wearing longer trousers. These men became known as the *sans-culottes*—without breeches.

Both men and women shunned high heels and wore more practical leather or wooden shoes.

REVOLUTIONARY WEAR

During the Reign of Terror, a fashion statement became a political statement. Former nobles and wealthy bourgeoisie learned to avoid extravagant clothing. People wearing lavish clothes were often singled out for persecution, even execution. Revolutionary wear was simple, peasant garb in patriotic colors. Some revolutionary attire stayed in style, like the *pantelons*, or trousers.

ANALYZING VISUALS

1. **Comparing** Who sets fashion trends today, and who inspired fashion in the 1700s?
2. **Making Inferences** How do today's clothing styles make political or social statements?

Radical Revolution and Reaction

| 3. |
| 4. |

Just as in the American Revolution, participants in the French Revolution had different ideas about how to carry out revolutionary ideas and achieve their goals. The revolution tore France's political, economic, and social structure apart, which made neighboring countries nervous. The French Revolution became more radical because of internal divisions and because of fear of foreign invasion.

The Move to Radicalism

MAIN IDEA When the new government was faced with many internal crises and external threats, it broke into factions.

HISTORY & YOU How does our Congress work to solve problems and pass laws? Read how various factions tried to take power in France.

After his flight to Varennes, Louis XVI remained on the throne for a year, but it was a chaotic year. Unrest was fueled by continuing food shortages, military setbacks, and rumors of royalist conspiracies. By August of 1792, the monarchy was over. Rallied by the newly appointed minister of justice, **Georges Danton**, the sans-culottes attacked the palace, and the royal family had to seek protection from the Legislative Assembly.

The powerful Paris Commune forced the Legislative Assembly to call a National Convention. Before the Convention could meet, panic and fear again gripped Paris. Rumors spread that imprisoned nobles and other traitors were conspiring to defeat the revolution. Violence erupted in the streets in September, leaving thousands dead. New leaders of the people emerged, including **Jean-Paul Marat**, who published a radical journal called *Friend of the People*. Marat defended the September massacres.

Soon the life of the king was at risk. The buildup to his execution began with the elections for a new National Convention.

The First Republic

In September 1792, the newly elected National Convention began meeting. The Convention had been called to draft a new constitution, but it also served as the ruling body of France. It was dominated by lawyers, professionals, and property owners. Two-thirds of its deputies were under the age of 45, but most had some political experience as a result of the revolution. Almost all distrusted the king. It was therefore no surprise that the National Convention's first major step on September 21 was to abolish the monarchy and establish a republic, the French Republic.

*The Fate of the King*

EYEWITNESS ACCOUNT

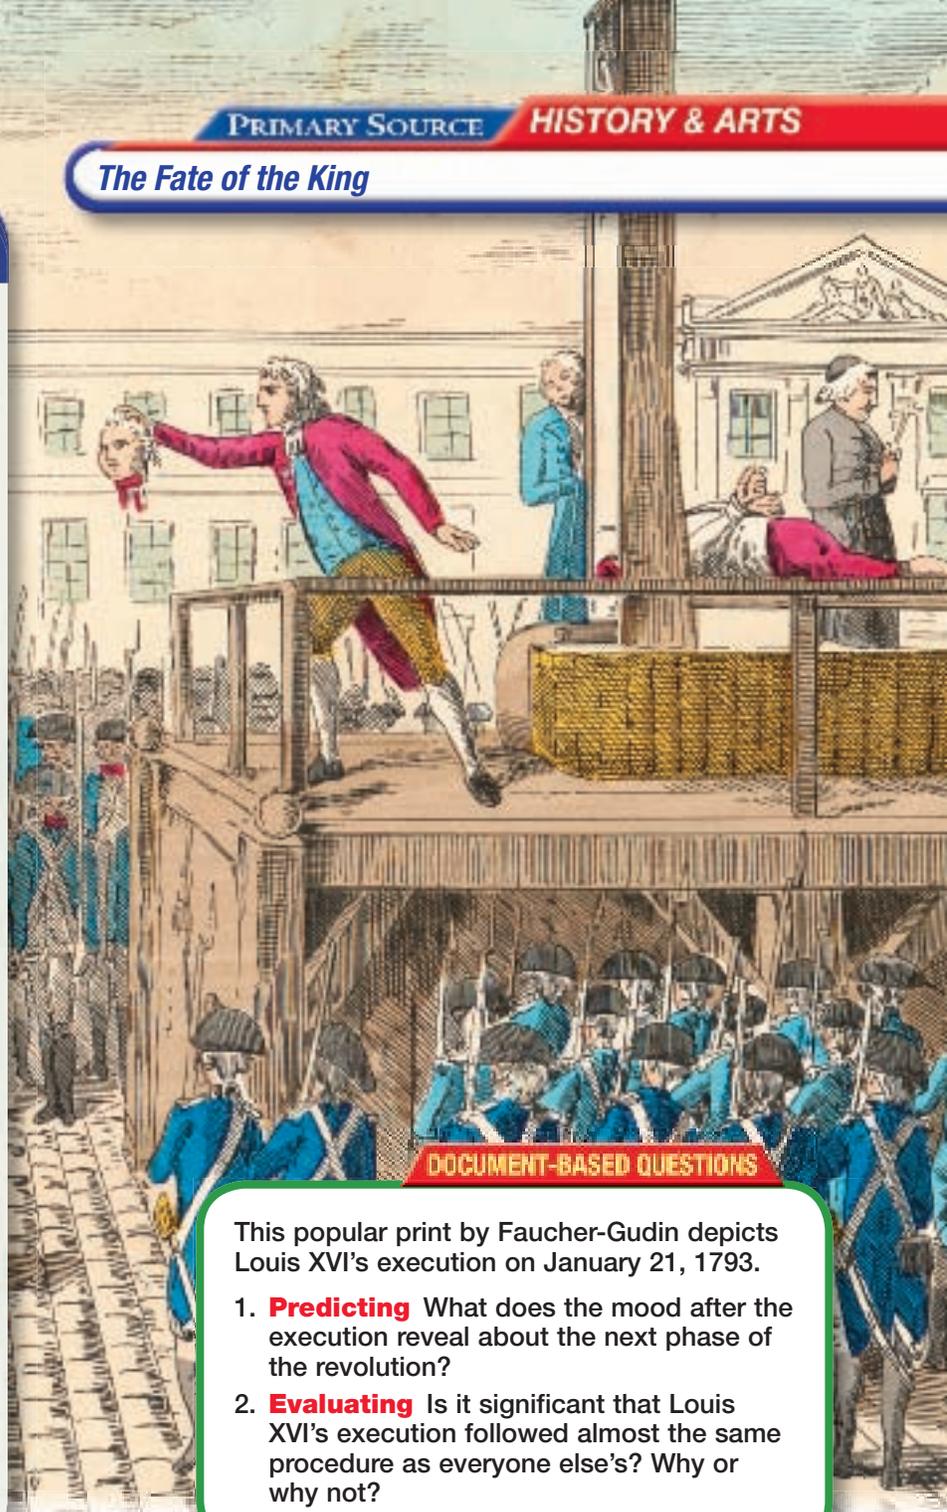

King Beheaded!

In a letter, Philippe Pinel, a physician, described the king's execution:

"... [Louis XVI] looked at the scaffold without flinching. The executioner at once proceeded to perform the customary rite by cutting off the King's hair, which he put in his pocket. Louis then walked up onto the scaffold. The air was filled with the roll of numerous drums . . . with such force that Louis's voice was drowned and it was only possible to catch a few stray words like 'I forgive my enemies' . . .

. . . Louis was fastened onto the deadly plank of the machine they call the guillotine and his head was cut off so quickly that he could hardly have suffered. This at least is a merit belonging to the murderous instrument . . . The executioner immediately lifted the head from the sack into which it fell automatically and displayed it [the head] to the people. . . .

As soon as the execution had taken place, the expression on the faces of many spectators changed . . . and [they] fell to crying, 'Vive la Nation!' . . . but a great number withdrew, their spirits racked with pain, to shed tears in the bosom of their families. As decapitations could not be performed without spilling blood on the scaffold many persons hurried to the spot to dip the end of their handkerchief or a piece of paper in it, to have a reminder of this memorable event."

DOCUMENT-BASED QUESTIONS

This popular print by Faucher-Gudin depicts Louis XVI's execution on January 21, 1793.

1. **Predicting** What does the mood after the execution reveal about the next phase of the revolution?
2. **Evaluating** Is it significant that Louis XVI's execution followed almost the same procedure as everyone else's? Why or why not?

The Fate of the King

After 1789, citizens had enthusiastically formed political clubs of varying social and political views. Many deputies belonged to these clubs. The Girondins (juh•RAHN•duhns) tended to represent areas outside Paris. They feared the radical mobs of Paris and leaned toward keeping the king alive. The Mountain represented the interests of radicals in Paris, and many belonged to the

Jacobins (JA•kuh•buhns) club. Increasingly they felt the king needed to be executed to ensure he was not a rallying point for opponents of the republic.

Both **factions**, or dissenting groups, tried to influence the "plain," the majority of deputies who did not belong to any political club. In early 1793, the Mountain convinced the Convention to pass a decree condemning Louis XVI to death.

On January 21, the king was beheaded on the guillotine. Revolutionaries had adopted this machine because it killed quickly and, they believed, humanely. The king’s execution created new enemies for the revolution, both at home and abroad. A new crisis was at hand.

The execution of King Louis XVI pushed the revolution into a new radical phase. Henry de Firmont, a Catholic priest, was present at the king’s execution. He describes the events he witnessed:

PRIMARY SOURCE

“The path leading to the scaffold was extremely rough and difficult to pass; the King was obliged to lean on my arm, and from the slowness with which he proceeded, I feared for a moment that his courage might fail; but what was my astonishment, when arrived at the last step, he suddenly let go of my arm, and I saw him cross with a firm foot the breadth of the whole scaffold; and in a loud voice, I heard him pronounce distinctly these words: ‘I die innocent of all the crimes laid to my charge; I pardon those who had occasioned my death; and I pray to God that the blood you are going to shed may never be visited on France.’”

—Henry de Firmont

Crises and Responses

Disputes between the Girondins and the Mountain blocked the writing of a constitution. The Paris Commune pressured the National Convention to adopt more radical measures: price controls on food and universal male suffrage. Peasants in western France and inhabitants of major provincial cities refused to accept the authority of the Convention. Uprisings began in the west and spread to the south.

After Louis XVI was executed, a coalition of Austria, Prussia, Spain, Portugal, Britain, and the Dutch Republic took up arms against France. The French armies began to fall back. By late spring 1793, the coalition was poised to invade. It seemed possible that the revolution would be destroyed, and the old regime reestablished. Confronted with **domestic** uprisings and **external** threats, the National Convention gave the **Committee of Public Safety** broad powers. This was dominated by Georges Danton, then by the radical Jacobin **Maximilien Robespierre**.

✓ Reading Check **Examining** What were the differences between the Girondins and the Mountain?

PEOPLE *in* HISTORY

Jean-Paul Marat

1743–1793 French Revolutionary

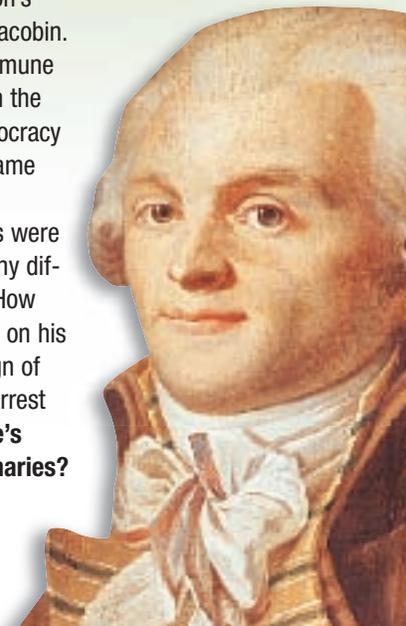

Marat earned his nickname “drinker of blood” by urging the poor to take what they needed by force. As a radical Jacobin, Marat condemned the moderate Girondins. In *The Death of Marat*, Jacques-Louis David painted the murder scene and portrayed Marat as a martyr to the revolution. Marat often worked in his bathtub to soothe a skin condition. In Marat’s hand is a letter from Charlotte Corday, a Girondin sympathizer, who asked for an appointment with him. Corday stabbed Marat in the bathtub and later stood trial for her crime. **Why did Marat condemn the approach of the Girondins?**

Maximilien Robespierre

1758–1794 French Revolutionary

Robespierre was one of the revolution’s most important leaders and a radical Jacobin. He drew his power from the Paris Commune and the support of the sans-culottes. In the National Convention, he preached democracy and universal male suffrage. His nickname was “The Incorruptible” because of his reputation for integrity. His weaknesses were self-righteousness and not tolerating any difference of opinion. Robespierre said, “How can one reproach a man who has truth on his side?” His passion in pursuing the Reign of Terror frightened many and led to his arrest and execution. **How were Robespierre’s views different from other revolutionaries?**

The Reign of Terror

MAIN IDEA While the Committee of Public Safety was in power, thousands were executed.

HISTORY & YOU Can you name a government that has executed its critics? Learn about the effects of the executions in France.

For roughly a year during 1793 and 1794, the Committee of Public Safety took control of the government. To defend France from domestic threats, the Committee adopted policies that became known as the **Reign of Terror**.

Crushing Rebellion

As a temporary measure, revolutionary courts were set up to prosecute counter-revolutionaries and traitors. Throughout France, almost 40,000 people were killed during the Reign of Terror. Of those, 16,000 people, including Marie Antoinette and Olympe de Gouges, died by the guillotine. Most executions occurred in towns that had openly rebelled against the Convention.

Revolutionary armies were set up to bring rebellious cities under the control of the National Convention. When the Committee of Public Safety decided to make an example of Lyon, 1,880 citizens of that city were executed. When guillotining proved too slow, grapeshot (a cluster of small iron balls) was used to shoot the condemned into open graves. A foreign witness wrote:

PRIMARY SOURCE

"Whole ranges of houses, always the most handsome, burnt. The churches, convents, and all the dwellings of the former patricians were in ruins. When I came to the guillotine, the blood of those who had been executed a few hours beforehand was still running in the street. . . . I said to a group of sans-culottes that it would be decent to clear away all this human blood. Why should it be cleared? one of them said to me. It's the blood of aristocrats and rebels. The dogs should lick it up."

—a German observer at Lyon, 1793

In western France, too, revolutionary armies were brutal in defeating rebels. The commander of the revolutionary army

ordered that no mercy be given: "The road is strewn with corpses. Women, priests, monks, children, all have been put to death. I have spared nobody." Perhaps the most notorious violence occurred in Nantes, where victims were executed by being sunk in barges in the Loire River.

People from all classes were killed during the Terror. Clergy and nobles made up about 15 percent of the victims, while the rest were from the Third Estate. The Committee of Public Safety held that all this bloodletting was only temporary. Once the war and domestic crisis were over, the true "Republic of Virtue" would follow, and the Declaration of the Rights of Man and the Citizen would be realized. Robespierre wrote:

PRIMARY SOURCE

". . . [T]he springs of popular government in revolution are at once virtue and terror: virtue, without which terror is fatal; terror, without which virtue is powerless. Terror is nothing other than justice, prompt, severe, inflexible; it is therefore an emanation of virtue."

—Robespierre

The Republic of Virtue

In addition to the Terror, the Committee of Public Safety took other steps to control and shape a French society. Robespierre called this new order the Republic of Virtue—a democratic republic composed of good citizens. As outward signs of support for the republic, the titles "citizen" and "citizenship" were to replace "mister" and "madame." Women wore long dresses inspired by the clothing worn in the ancient Roman Republic.

Good citizens would be formed by good education. A law aimed at primary education for all was passed but not widely implemented. Another law abolished slavery in French colonies.

Because people were alarmed about high inflation, the Committee tried to control the prices of essential goods like food, fuel, and clothing. The controls did not work well, however, because the government had no way to enforce them.

From the beginning, women had been active participants in the revolution, although they had no official power.

During the radical stage of the revolution, women observed sessions of the National Convention and were not shy about making their demands.

In 1793, two women founded the Society for Revolutionary Republican Women in Paris. Most members were working-class women who asserted that they were ready to defend the republic. Most men, however, believed that women should not participate in either politics or the military.

The Convention also pursued a policy of de-Christianization. Its members believed that the religion encouraged superstition, rather than the use of reason. The word *saint* was removed from street names, churches were looted and closed by revolutionary armies, and priests were encouraged to marry. In Paris, the cathedral of Notre Dame, the center of the Catholic religion in France, was designated a “temple of reason.” In November 1793, a public ceremony dedicated to the worship of reason was held in the former cathedral. Patriotic young girls dressed in white dresses

paraded before a temple of reason where the high altar had once stood.

Another example of de-Christianization was the adoption of a new calendar. Years would no longer be numbered from the birth of Christ but from September 22, 1792—the first day of the French Republic and the autumnal equinox. The calendar contained 12 months. Each month consisted of three 10-day weeks, with the tenth day of each week a day of rest.

The months were given new names that referred to agriculture or the climate. *Vendémiaire*, which started in September, meant “vintage time.” These changes in the calendar had a significant effect on religion in France, eliminating Sundays, Sunday worship services, and church holidays.

Robespierre came to realize, however, that most French people would not accept these efforts at de-Christianization. France was still overwhelmingly Catholic.

A Nation in Arms

MAIN IDEA A huge revolutionary army defended France against invasion.

HISTORY & YOU How would you feel if every young person in your town was drafted? Read to learn the French reaction to a national draft in 1793.

As foreign troops gathered on its borders, the revolution seemed to be in danger. To save the republic, the Committee of Public Safety issued a decree to raise an army:

PRIMARY SOURCE

"Young men will fight, young men are called to conquer. Married men will forge arms, transport military baggage and guns and will prepare food supplies. Women, who at long last are to take their rightful place in the revolution and follow their true destiny, will forget their futile tasks: their delicate hands will work at making clothes for soldiers; they will make tents and they will extend their tender care to shelters where the

defenders of the Patrie [homeland] will receive the help that their wounds require. Children will make lint of old cloth. It is for them that we are fighting: children, those beings destined to gather all the fruits of the revolution, will raise their pure hands toward the skies. And old men, performing their missions again, as of yore, will be guided to the public squares of the cities where they will kindle the courage of young warriors and preach the doctrines of hate for kings and the unity of the Republic."

—from the mobilization decree, August 23, 1793

Rise of the Revolutionary Army

In less than a year, the new French government had raised a huge army—by September 1794, it had over a million soldiers. It was the largest army ever seen in Europe, and it pushed the invaders back across the Rhine. It even conquered the Austrian Netherlands. In earlier times, wars were the business of rulers who fought rivals with professional soldiers. The new French army was created by a people's government. Its wars were people's wars.

Analyzing TIME LINES

1. **Determining Cause and Effect** What did the execution of Louis XVI set in motion in France and in the rest of Europe?
2. **Drawing Conclusions** Explain why the Reign of Terror came to an end.

End of the Terror

By the summer of 1794, the French had largely defeated their foreign foes. There was less need for the Reign of Terror, but it continued nonetheless. Robespierre was obsessed with ridding France of all the corrupt elements. Only then could the Republic of Virtue follow.

In June 1794, the Law of 22 Prairial was passed, which gave Robespierre more power to arrest and execute enemies of the revolution. Deputies in the National Convention who feared Robespierre

decided to act, lest they be the next victims. They gathered enough votes to condemn him, and Robespierre was guillotined on July 28, 1794.

After the death of Robespierre, the Jacobins lost power and more moderate middle-class leaders took control. The Reign of Terror came to a halt. In August 1794, the Law of 22 Prairial was repealed and the release of prisoners began.

- 2. Making Inferences** Wordsworth’s poem seems to indicate that “all parties, ages, ranks” suffered equally during the Terror. Does this chart and the one on page 577 support or challenge this view?

The Radical's Arms.

The Directory

MAIN IDEA The Constitution of 1795 set up a new government, but it was unable to inspire trust or solve economic problems.

HISTORY & YOU What kind of government did Americans have after 1781? Read to learn about France’s government after Robespierre.

With the Terror over, the National Convention moved in a more conservative direction. First, it restricted the power of the Committee of Public Safety. Next, churches were allowed to reopen. Finally, a new constitution was created.

To keep any one political group from gaining control, the Constitution of 1795 set up two legislative houses. A lower house, the Council of 500, drafted laws. An upper house of 250, the Council of Elders, accepted or rejected proposed laws.

The method for election shows that the new government was much more conservative than the government of Robespierre. Members of both houses were chosen by **electors**, or qualified voters. Only those who owned or rented property worth a certain amount could be electors—only 30,000 people in the whole nation qualified. This was a significant change from the universal male suffrage the Paris Commune had demanded.

Under the new constitution, the executive was a committee of five called the **Directory**. The Council of Elders chose the Directors from a list presented by the Council of 500. The Directory, which lasted from 1795 to 1799, became known mainly for corruption. People reacted against the sufferings and sacrifices that had been demanded in the Reign of Terror. Some people made fortunes from government contracts or by loaning the government money at very high interest rates. They took advantage of the government’s severe money problems during these difficult times.

At the same time, the government of the Directory faced political enemies from both conservatives and radicals. Some people wanted to bring back the monarchy, while others plotted to create a more radical regime like Robespierre’s. Likewise, economic problems continued with no solution in sight. Finally, France was still conducting expensive wars against foreign enemies.

To stay in power, the Directory began to rely on the military, but one military leader turned on the government. In 1799 the successful and popular general Napoleon Bonaparte toppled the Directory in a **coup d’état** (koo day • TAH), a sudden overthrow of the government. Napoleon then seized power.

Who Should Be a Citizen?

What is a citizen? One definition is a free person who owes loyalty to a nation and who receives protection, rights, and privileges in return.

Who should be a citizen? At the time of the American Revolution only free, white adult males who owned property or paid taxes could vote. By 1870, all adult males “regardless of race, color, or previous condition of servitude” were granted the right to vote, but it was 1920 before American women could vote.

In France, the Declaration of the Rights of Man and the Citizen addressed social distinctions, but opinions differed on how to interpret the document. Read the excerpts from Robespierre and d’Aelders and study Fragonard’s painting to see how they viewed citizenship and the continuing struggle for rights.

SOURCE 1

In this speech from October 1789, Maximilien Robespierre stated his view on property requirements for holding office and voting.

All citizens, whoever they are, have the right to aspire to all levels of office-holding. Nothing is more in line with your declaration of rights, according to which all privileges, all distinctions, all exceptions must disappear. The Constitution establishes that **sovereignty**¹ resides in the people, in all the individuals of the people. Each individual therefore has the right to participate in making the law which governs him and in the administration of the public good which is his own. If not, it is not true that all men are equal in rights, that every man is a citizen. If he who only pays a tax equivalent to a day of work has fewer rights than he who pays the equivalent to three days of work, and he who pays at the level of ten days has more rights than he whose tax only equals that value of three, then he who enjoys 100,000 livres [French pounds] of revenue has 100 times as many rights as he who only has 1,000 livres of revenue. It follows from all your **decrees**² that every citizen has the right to participate in making the law and consequently that of being an elector or eligible for office without the distinction of wealth.

¹ **sovereignty**: power; authority

² **decrees**: authoritative decisions; declarations

SOURCE 2

Etta Palm d’Aelders was a woman active in a reform group called the Cercle Social (Social Circle). D’Aelders expressed her opinions in “The Injustices of the Laws and Favor of Men at the Expense of Women” (December, 1790).

Do not be just by halves, Gentlemen; . . . justice must be the first virtue of free men, and justice demands that the laws be the same for all beings, like the air and the sun. And yet everywhere, the laws favor men at the expense of women, because everywhere power is in your hands. What! Will free men, an enlightened people living in a century of enlightenment and philosophy, will they **consecrate**³ what has been the abuse of power in a century of ignorance? . . .

The prejudices with which our sex has been surrounded—supported by unjust laws which only accord us a secondary existence in society and which often force us into the humiliating necessity of winning over the **cantankerous**⁴ and ferocious character of a man, who, by the greed of those close to us has become our master—those prejudices have changed what was for us the sweetest and most saintly of duties, those of wife and mother, into a painful and terrible slavery. . . .

Oh! Gentlemen, if you wish us to be enthusiastic about the happy constitution that gives back men their rights, then begin by being just toward us. From now on we should be your voluntary companions and not your slaves. Let us merit your attachment!

³ **consecrate**: make sacred

⁴ **cantankerous**: having a bad disposition; quarrelsome

▲ *Boissy d'Anglas salutes the head of the deputy Feraud, May 20, 1795*, by Alexandre Fragonard.

SOURCE 3

On May 20, 1795, an angry mob in the Convention hacked the head off deputy Feraud and presented it to the chairman, Boissy d'Anglas, who saluted the head. After this incident, d'Anglas presented measures to prevent the return of the Reign of Terror and to take precautions against **anarchy**⁵.

Usually the crowds in the balcony were merely rowdy, insulting and threatening the deputies. At times like the one in the painting, they became a mob, invading the chamber and killing deputies with whom they disagreed. Some leaders thought the poor and the uneducated would take over the government, leading to violence and disorder. They feared “mob rule.”

⁵ **anarchy**: state of lawlessness based on lack of government authority

DOCUMENT-BASED QUESTIONS

1. **Analyzing** What does Robespierre think about basing citizenship on whether a person has property or pays taxes?
2. **Explaining** What does d'Aelders mean by women's “secondary existence in society”?
3. **Drawing Inferences** What do you think Fragonard's opinion might have been of universal suffrage—the right of all citizens to vote?
4. **Comparing** Although Robespierre was not a supporter of equal rights for women, list some similarities between his and d'Aelders's arguments.
5. **Contrasting** How does d'Aelders portrayal of women contrast with Fragonard's?
6. **Drawing Conclusions** Does universal suffrage mean anarchy or mob rule? How would you answer the question “Who should be a citizen?” Which source has a position most like your own?

Explaining As you read, use a diagram like the one below to help your study.

Napoleon Bonaparte dominated French and European history from 1799 to 1815. During his reign Napoleon built and lost an empire and also spread ideas about nationalism in Europe.

The Rise of Napoleon

MAIN IDEA Napoleon, a popular general, overthrew the Directory, set up a new government, and eventually took complete power.

HISTORY & YOU What qualities do you look for in a political leader? Learn what made the French follow Napoleon.

Napoleon Bonaparte's role in the French Revolution is complex. In one sense, he brought it to an end when he came to power in 1799. Yet he was a child of the revolution as well. Without it, he would never have risen to power, and he himself never failed to remind the French that he had preserved the best parts of the revolution during his reign as emperor.

Early Life

Napoleon was born in 1769 in Corsica, an island in the Mediterranean, only a few months after France had annexed the island. His father came from minor nobility in Italy, but the family was not rich. Napoleon was talented, however, and won a scholarship to a famous military school.

When he completed his studies, Napoleon was commissioned as a lieutenant in the French army. Although he became one of the world's greatest generals and a man beloved by his soldiers, there were few signs of his future success at this stage. He spoke with an Italian accent and was not popular with his fellow officers.

Napoleon devoted himself to his goals. He read what French philosophers had to say about reason, and he studied famous military campaigns. When revolution and war with Europe came about, there were many opportunities for Napoleon to use his knowledge and skills.

Military Successes

Napoleon rose quickly through the ranks. In 1792 he became a captain. Two years later, at age 24, the Committee of Public Safety made him a brigadier general. In 1796 he became commander of the French armies in Italy. There Napoleon won a series of battles with qualities he became famous for—speed, surprise, and decisive action. Napoleon defeated the armies of the Papal States and

Napoleon's mother actually did not attend, but Napoleon told David to add her.

The Coronation of the Emperor Napoleon I

New crowns were made because the originals were lost during the revolution.

Pope Pius VII is shown giving his blessing.

David and his students painted 191 portraits, including Josephine's children, Napoleon's siblings, David's family, and important dignitaries.

DOCUMENT-BASED QUESTIONS

This detail of *The Coronation of the Emperor Napoleon I* by Jacques-Louis David shows Napoleon crowning the Empress Josephine on December 2, 1804. The complete painting, located at the Louvre, is 20 feet by 32 feet.

1. **Describing** How is Napoleon portrayed in this painting?
2. **Making Inferences** How does the painting glorify and legitimize the Empire?

their Austrian allies. These victories gave France control of northern Italy. Throughout the Italian campaigns, Napoleon's energy and initiative earned him the devotion of his troops. His keen intelligence, ease with words, and supreme self-confidence allowed him to win the support of those around him.

In 1797 he returned to France as a hero. He was given command of an army in training to invade Britain, but he knew the French could not carry out that invasion.

Instead, Napoleon suggested striking indirectly at Britain by taking Egypt.

Egypt lay on the route to India, a major source of British wealth and therefore one of Britain's most important colonies. Napoleon's goal of taking Egypt was never met, however. The British were a great sea power and controlled the Mediterranean. By 1799, the British had defeated the French naval forces supporting Napoleon's army in Egypt. Seeing certain defeat, Napoleon abandoned his army and returned to Paris.

Consul and Emperor

In Paris, Napoleon took part in the coup d'état of 1799 that overthrew the Directory and set up a new government, the **consulate**. In theory, it was a republic, but, in fact, Napoleon held absolute power. Napoleon was called first consul, a title borrowed from ancient Rome. He appointed officials, controlled the army, conducted foreign affairs, and influenced the legislature. In 1802 Napoleon was made consul for life. Two years later, he crowned himself Emperor Napoleon I.

✓ Reading Check **Describing** What personal qualities gained Napoleon so much popular support?

Napoleon's Domestic Policies

MAIN IDEA Napoleon brought stability to France and established a single law code that recognized the equality of all citizens before the law.

HISTORY & YOU How would you feel if a government official checked all your mail before you read it? Read how many of Napoleon's policies reduced freedom.

Napoleon once claimed that he had preserved the gains of the revolution. Since he destroyed the republican form of government when he took power, how could Napoleon make this assertion? As we look

CONNECTING TO THE UNITED STATES

LOUISIANA PURCHASE

Napoleon's rule had a direct connection to expansion in the United States. In 1803 Napoleon sold the Louisiana Territory to the United States for \$15 million. The boundaries of the Louisiana Purchase ran from the Mississippi River to the Rocky Mountains, and from the Gulf of Mexico to the Canadian border. This sale has been called the greatest land deal in history.

The Louisiana Territory was originally claimed by France in 1682, went to Spain in 1763, and back to France in 1800. This last exchange closed the port of New Orleans to Americans. President Thomas Jefferson sent two ministers to France to address the problem. They threatened to create an alliance with Great Britain if the French failed to respond. Napoleon offered the entire territory for sale, an offer Jefferson couldn't resist.

- Napoleon gained \$15 million for his military campaigns, particularly against Great Britain, and he could now focus on his European campaigns rather than on struggles across the Atlantic.
- The United States doubled in size and gained full control of the Mississippi River, along with resources such as minerals, farm and grazing land, forests, and wildlife.

CONNECTING TO TODAY

1. **Explaining** Why did Napoleon sell the Louisiana Territory?
2. **Making Connections** Why was it important for the United States to control New Orleans?

at Napoleon's domestic policies, it will be possible to judge whether the emperor's claims had any merit.

Peace with the Church

One of Napoleon's first moves at home was to establish peace with the Catholic Church, the oldest enemy of the revolution. In matters of religion, Napoleon himself was a man of the Enlightenment. He believed in reason and felt that religion was at most a social convenience. Since most of the French were Catholic, Napoleon felt it was good policy to mend relations with the Church.

In 1801 Napoleon came to an agreement with the pope, which recognized Catholicism as the religion of a majority of the French people. In return, the pope would not ask for the return of the church lands seized in the revolution.

With this agreement, the Catholic Church was no longer an enemy of the French government. It also meant that people who had acquired church lands in the revolution became avid supporters of Napoleon.

Codification of the Laws

Napoleon's most famous domestic achievement was to codify the laws. Before the revolution, France had almost 300 different legal systems. During the revolution, efforts were made to prepare a single law code for the entire nation. However, the work was not completed until Napoleon's reign.

Seven law codes were created, but the most important was the **Civil Code**, or Napoleonic Code, introduced in 1804. It preserved many of the principles that the revolutionaries had fought for: equality of all citizens before the law; the right of the individual to choose a profession; religious toleration; and the abolition of serfdom and all feudal obligations.

For women and children, the Civil Code was a step back. During the radical stage of the revolution, new laws had made divorce easier and allowed children, even daughters, to inherit property on an equal basis. The Civil Code undid these laws. Women were now "less equal than men."

When they married, they lost control over any property they had. They could not testify in court, and it became more difficult for them to begin divorce proceedings. In general, the code treated women like children, who needed protection and who did not have a public role.

A New Bureaucracy

Napoleon is also well known because he created a strong, centralized administration. He focused on developing a bureaucracy of **capable** officials. Early on, the regime showed that it did not care about rank or birth. Public officials and military officers alike were promoted based on their ability. Opening careers to men of talent was a reform that the middle class had clamored for before the revolution.

Napoleon also created a new aristocracy based on meritorious service to the nation. Between 1808 and 1814, Napoleon created about 3,200 nobles. Nearly 60 percent were military officers, while the rest were civil service or state and local officials. Socially, only 22 percent of this new aristocracy were from noble families of the old regime; about 60 percent were middle class in origin.

Preserver of the Revolution?

In his domestic policies, then, Napoleon did keep some major reforms of the French Revolution. Under the Civil Code, all citizens were equal before the law. The concept of opening government careers to more people was another gain of the revolution that he retained.

On the other hand, Napoleon destroyed some revolutionary ideals. Liberty was replaced by a despotism that grew increasingly arbitrary, in spite of protests by such citizens as the prominent writer **Anne-Louise-Germaine de Staël**. Napoleon shut down 60 of France's 73 newspapers and banned books, including de Staël's. He insisted that all manuscripts be subjected to government scrutiny before they were published. Even the mail was opened by government police.

SPREADING THE PRINCIPLES OF THE REVOLUTION

As a result of his conquests, Napoleon spread revolutionary ideals and nationalism throughout Europe. To ensure loyalty, Napoleon installed his relatives on the thrones of the lands he conquered. When Napoleon named his brother Jerome king of Westphalia, he explained the importance of spreading the principles of the French Revolution.

“What the peoples of Germany desire most impatiently is that talented commoners should have the same right to your esteem and to public employments as the nobles, that any trace of serfdom . . . should be completely abolished. . . . The peoples of Germany, the peoples of France, of Italy, of Spain all desire equality and liberal ideas. . . . The buzzing of the privileged classes is contrary to the general opinion. Be a constitutional king.”

—Napoleon Bonaparte

Napoleon's Empire

MAIN IDEA As Napoleon conquered Europe, he spread nationalist ideas. Inspired by those ideas, conquered peoples resisted Napoleon's armies and helped bring about the collapse of his empire.

HISTORY & YOU How would Americans react to a foreign country dictating trade policy to their government? Read how Napoleon tried to bar trade with Britain.

Napoleon is, of course, known less for his domestic policies than for his military leadership. His conquests began soon after he rose to power.

Building the Empire

When Napoleon became consul in 1799, France was at war with a European coalition of Russia, Great Britain, and Austria. Napoleon realized the need for a pause in the war. "The French Revolution is not finished," he said, "so long as the scourge of war lasts. . . . I want peace, as much to settle the present French government, as to save the world from chaos." In 1802 a peace treaty was signed, but it did not last long. War with Britain broke out again in 1803. Gradually, Britain was joined by Austria, Russia, Sweden, and Prussia. In a series of battles at Ulm, Austerlitz, Jena, and Eylau from 1805 to 1807, Napoleon's Grand Army defeated the Austrian, Prussian, and Russian armies.

From 1807 to 1812, Napoleon was the master of Europe. His Grand Empire was composed of three major parts: the French Empire, dependent states, and allied states. The French Empire was the inner core of the Grand Empire. It consisted of an enlarged France extending to the Rhine in the east and including the western half of Italy north of Rome.

Dependent states were kingdoms ruled by relatives of Napoleon. Eventually these included Spain, Holland, the kingdom of Italy, the Swiss Republic, the Grand Duchy of Warsaw, and the Confederation of the Rhine—a union of all German states except Austria and Prussia.

Allied states were countries defeated by Napoleon and then forced to join his struggle

against Britain. These states included Prussia, Austria, Russia, and Sweden.

Spreading the Principles of the Revolution

Within his empire, Napoleon sought to spread some of the principles of the French Revolution, including legal equality, religious toleration, and economic freedom. In the inner core and dependent states of his Grand Empire, Napoleon tried to destroy the old order. The nobility and the clergy everywhere in these states lost their special privileges. Napoleon decreed equality of opportunity with offices open to those with ability, equality before the law, and religious toleration. The spread of French revolutionary principles was an important factor in the development of **liberal** traditions in these countries.

Like Hitler 130 years later, Napoleon hoped that his Grand Empire would last for centuries, but his empire collapsed almost as rapidly as it was formed. Two major reasons help explain this collapse: Britain's ability to resist Napoleon and the rise of nationalism.

British Resistance

Napoleon was never able to conquer Great Britain because of its sea power, which made it almost invulnerable. Napoleon hoped to invade Britain, but the British defeated the combined French-Spanish fleet at Trafalgar in 1805. This battle ended Napoleon's plans for invasion.

Napoleon then turned to his Continental System to defeat Britain. The aim of the Continental System was to stop British goods from reaching the European continent to be sold there. By weakening Britain economically, Napoleon would destroy its ability to wage war.

The Continental System also failed. Allied states resented being told by Napoleon that they could not trade with the British. Some began to cheat. Others resisted. Furthermore, new markets in the Middle East and in Latin America gave Britain new outlets for its goods. Indeed, by 1810, British overseas exports were at near-record highs.

Nationalism

A second important factor in the defeat of Napoleon was nationalism. **Nationalism** is the sense of unique identity of a people based on common language, religion, and national symbols. Nationalism was one of the most important forces of the nineteenth century. A new era was born when the French people decided that they were the nation.

Napoleon marched his armies through the Germanies, Spain, Italy, and Poland, arousing new ideas of nationalism in two ways. First, the conquered peoples became united in their hatred of the invaders. Second, the conquered peoples saw the power and strength of national feeling. It was a lesson not lost on them or their rulers.

✓ Reading Check Explaining Why did being a sea power help Britain to survive an attack by the French?

The Fall of Napoleon

MAIN IDEA After major losses in Russia and Austria, Napoleon was defeated at Waterloo.

HISTORY & YOU Today there are some rulers who go into exile to avoid prosecution in their homelands. Read why in 1815 the French government exiled Napoleon.

Napoleon's downfall began in 1812 when he decided to invade Russia. Within only a few years, his fall was complete.

Disaster in Russia

The Russians had refused to remain in the Continental System, leaving Napoleon with little choice but to invade. He knew the risks in invading such a large country, but he also knew that if he did not punish

NATIONAL GEOGRAPHIC

DISASTER IN RUSSIA

Russia had rebelled against the Continental System, so Napoleon invaded in 1812 to force his ally to comply. His Grand Army was used to striking quickly and living off the land, but the Russians were ready for him.

→ French advance
← French retreat

June 24, 1812 — Neman Napoleon's army of 600,000 crossed the Neman River, following the retreating Russians.

December 13, 1812 — Neman The remaining 40,000 of the Grand Army crossed the Neman River, leaving Russia.

November 26–29 — Berezina Thousands of Napoleon's troops died crossing the river to escape the Russians.

September 7 — Borodino In the only full-scale battle between them, the French defeated the Russians but lost 30,000 men.

August 16–18 — Smolensk After three days of fighting, Napoleon led his tired army deeper into Russia.

November 9 — Smolensk There were not enough supplies to feed the starving French.

September 14 — Moscow As Napoleon arrived, the Russians set fire to Moscow, destroying three-quarters of the city.

October 19 — Moscow After waiting five weeks for the Russians to surrender, the French retreated without food or supplies.

Geography SKILLS

- Human-Environment Interaction** How did the Russians use their environment to defeat the French?
- Movement** Napoleon was known for setting traps. Using the map and the graph, explain how he fell into a Russian trap.

the Russians for ignoring the Continental System, other nations would follow suit.

In June 1812, a Grand Army of more than 600,000 men entered Russia. Napoleon's hopes depended on a quick victory over the Russians. The Russian forces, however, refused to do battle. Instead they retreated for hundreds of miles. As they retreated, they burned their own villages and countryside to keep Napoleon's army from finding food. When the Russians did fight at Borodino, Napoleon's forces won an indecisive victory, which cost many lives.

When the Grand Army finally reached Moscow, they found the city ablaze. Lacking food and supplies for his army, Napoleon abandoned the Russian capital in late October. As the winter snows began, Napoleon led the "Great Retreat" west across Russia. Thousands of soldiers starved and froze along the way. Fewer than 40,000 of the original 600,000 soldiers arrived back in Poland in January 1813.

This military disaster led other European states to rise up and attack the crippled French army. Paris was captured in March 1814. Napoleon was soon sent into exile on the island of Elba, off the northwest coast of Italy. The victorious powers restored monarchy to France in the person of Louis XVIII, brother of the executed king, Louis XVI.

The Final Defeat

The new king had little support, and the French people were not ready to surrender the glory of empire. Nor was Napoleon ready to give up. Restless in exile, he left the island of Elba and slipped back into France. The new king sent troops to capture Napoleon, who opened his coat and addressed them: "Soldiers of the 5th regiment, I am your Emperor. . . . If there is a man among you [who] would kill his Emperor, here I am!"

No one fired a shot. Shouting "Vive l'Empereur! Vive l'Empereur!"—"Long live the Emperor! Long live the Emperor!"—the troops went over to his side. On March 20, 1815, Napoleon entered Paris in triumph.

Russia, Great Britain, Austria, and Prussia responded to Napoleon's return. They again pledged to defeat the man they called the "Enemy and Disturber of the Tranquility of the World." Meanwhile, Napoleon raised another French army of devoted veterans who rallied from all over France. He then readied an attack on the allied troops stationed across the border in Belgium.

At Waterloo in Belgium on June 18, 1815, Napoleon met a combined British and Prussian army under the **Duke of Wellington** and suffered a bloody defeat. This time, the victorious allies exiled him to St. Helena, a small island in the south Atlantic. Napoleon remained in exile until his death in 1821, but his memory haunted French political life for many decades.

Reading Check

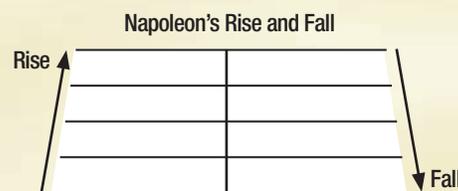

Examining Why did Napoleon invade Russia?

Vocabulary

1. **Explain** the significance of: Napoleon Bonaparte, consulate, Civil Code, capable, Anne-Louise-Germaine de Staël, liberal, nationalism, Duke of Wellington.

Main Ideas

2. What were four major principles that were reflected in the Civil Code?
3. List the powers Napoleon exercised as first consul.
4. Using a diagram like this one, identify the reasons for the rise and fall of Napoleon.

Critical Thinking

5. **The BIG Idea Summarizing** How did nationalism unify the people in countries that Napoleon invaded? Write a paragraph defining the importance of nationalism to the ultimate downfall of Napoleon.
6. **Connecting Events** How did the principles of the French Revolution spread throughout Europe?
7. **Analyzing Visuals** Examine the portrait on page 598. How does David portray Napoleon, and why do you think Napoleon wanted artists to produce paintings like this one?

Writing About History

8. **Persuasive Writing** Was Napoleon an enlightened ruler or a tyrant? Write a paper supporting your view. Be sure to include pertinent information about Napoleon's Civil Code.

CHAPTER 18 Visual Summary

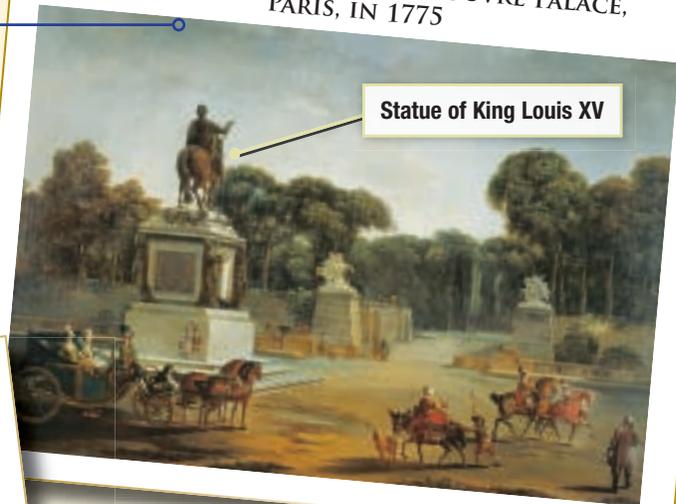

You can study anywhere, anytime by downloading quizzes and flash cards to your PDA from glencoe.com.

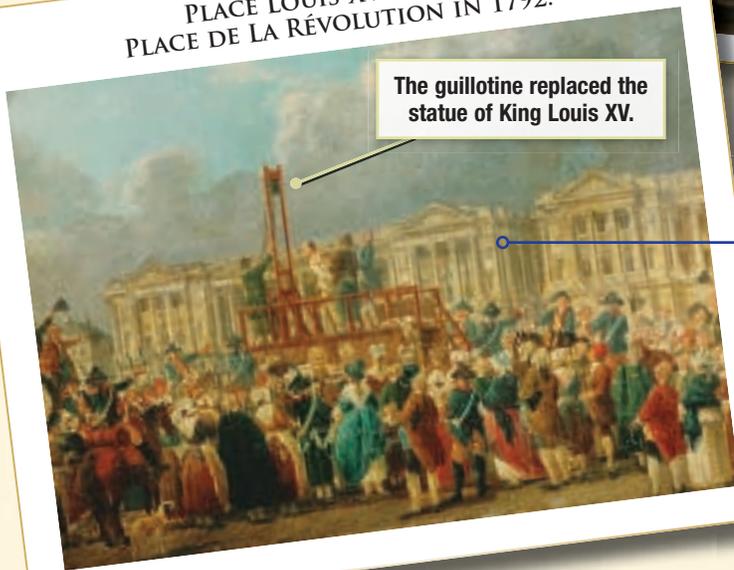

CAUSES of the French Revolution

- France was ruled by absolute monarchy.
- A rigid social class system existed.
- The government was bankrupt.
- The Third Estate had no voice in government.
- Bad harvests, rising food prices, and unfair taxation caused civil unrest.
- The political goals of the nobility and middle class challenged the monarchy.

PLACE LOUIS XV, NEAR THE LOUVRE PALACE, PARIS, IN 1775

PLACE LOUIS XV BECAME PLACE DE LA RÉVOLUTION IN 1792.

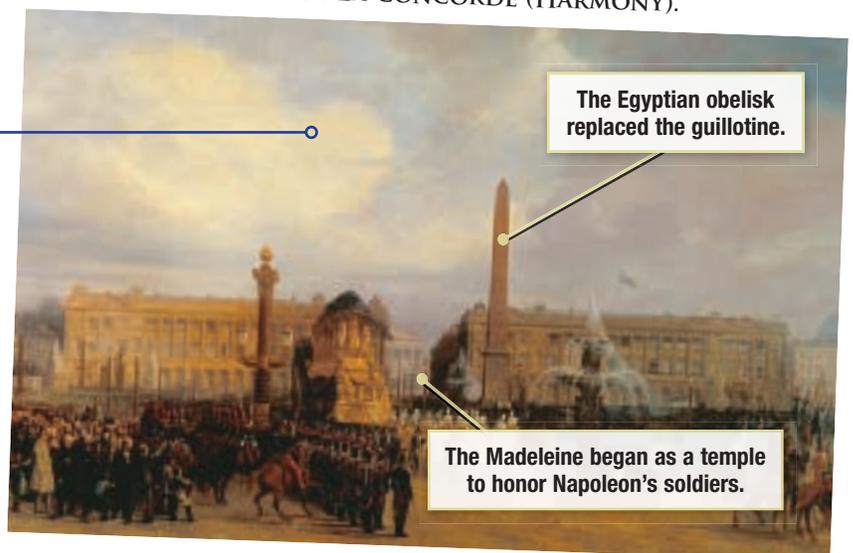

SHORT-TERM EFFECTS of the French Revolution

- The end of the monarchy caused initial chaos.
- France was attacked by foreign countries.
- The beheading of royals and the Reign of Terror led to internal disorder.
- Napoleon seized power and became emperor of France.

LONG-TERM EFFECTS of the French Revolution

- Napoleon's army conquered other countries and changed many traditional political and class systems.
- French armies spread nationalism and Enlightenment ideals to other countries.

PLACE DE LA RÉVOLUTION BECAME PLACE DE LA CONCORDE (HARMONY).

STANDARDIZED TEST PRACTICE

TEST-TAKING TIP

As you read a primary source, pause when you reach an unfamiliar word and make sure you understand what the word refers to. Doing so will help you find the answer to a test question more easily.

Reviewing Vocabulary

Directions: Choose the word or words that best complete the sentence.

- Paris Commune members, many of whom were called _____, considered themselves ordinary patriots.
 - priests
 - sans-culottes
 - aristocrats
 - bureaucrats
- One of three classes into which French society was divided before the revolution is referred to as a/an _____.
 - taille
 - estate
 - faction
 - assembly
- A/an _____ is a sudden overthrow of the government.
 - election
 - rebellion
 - coup d'état
 - crowning
- In 1799 Napoleon headed a new government called the _____.
 - consulate
 - Reign of Terror
 - Glorious Revolution
 - Republic of Virtue

Reviewing Main Ideas

Directions: Choose the best answers to the following questions.

Section 1 (pp. 576–583)

- Who called a meeting of the Estates-General in 1789?
 - Members of the First Estate
 - Members of the Third Estate
 - King Louis XVI
 - Olympe de Gouges
- Which right did the Third Estate claim in the National Assembly?
 - To have freedom of religion
 - To have access to the Louvre
 - To have their votes count as much as the other Estates
 - To form their own militia
- The Constitution of 1791 set up which form of government?
 - A limited monarchy
 - An absolute monarchy
 - A democracy
 - A republic

Section 2 (pp. 586–593)

- What did the European nations that opposed the revolution threaten to do?
 - Execute Louis XVI
 - Form a Republic of Virtue
 - Take away France's territories
 - Invade France

GO ON 

9. Thousands of people who opposed the government were executed when _____ was in power.
- A Louis XVI
 - B the Estates-General
 - C the Committee of Public Safety
 - D Napoleon
10. What event happened at the end of the Reign of Terror?
- A The execution of King Louis XVI
 - B The creation of the Committee of Public Safety
 - C The execution of Maximilien Robespierre
 - D Napoleon's overthrow of the Directory

Section 3 (pp. 596–603)

11. What is one of the changes Napoleon's law code brought to France?
- A It strengthened the power of the clergy.
 - B It furthered women's rights.
 - C It stated all citizens were equal before the law.
 - D It preserved traditional French society.
12. What was the goal of the Continental System?
- A Codify laws throughout Europe
 - B Cut off trade between Britain and France's allies
 - C Conquer Russia
 - D Create a strong, centralized bureaucracy in Europe
13. Where was Napoleon defeated for the final time?
- A Annecy in France
 - B Waterloo in Belgium
 - C Leipzig in Germany
 - D Moscow in Russia

Critical Thinking

Directions: Choose the best answers to the following questions.

14. Why was the French invasion of Russia a failure?
- A England came to Russia's aid.
 - B Napoleon was defeated before he could invade.
 - C Barriers kept the French army from entering Russia.
 - D Brutal weather and Russia's vast area made victory impossible.

Base your answers to questions 15 and 16 on the map below and your knowledge of world history.

15. Which city was not a center of execution?
- A Marseille
 - B Nantes
 - C Versailles
 - D Bordeaux
16. What do the locations of the centers of execution reveal about the influence of the Reign of Terror in France?
- A It affected all of France.
 - B It only affected Paris.
 - C It only affected people outside of France.
 - D It only affected people in western France.

GO ON

17. Why did the National Convention decide to execute Robespierre?

- A He was a member of the royal family.
- B They feared that he sold secrets to Britain.
- C He led the attack on the Bastille.
- D They feared his power and his fanaticism.

Analyze the cartoon and answer the question that follows. Base your answer on the cartoon and on your knowledge of world history.

▲ The Estates-General forging a new constitution

18. What opinion is the cartoonist expressing?

- A France is filled with hardworking citizens.
- B France is being destroyed by fighting between the Three Estates.
- C France's Three Estates worked together to create a document.
- D France's Third Estate works harder since his hammer is on the anvil.

Document-Based Questions

Directions: Analyze the document and answer the short answer questions that follow the document.

While emperor, Napoleon attempted to spread some ideals of the French Revolution to other nations. He shares these ideas with his brother Jerome, the new King of Westphalia:

"What the peoples of Germany desire most impatiently is that talented commoners should have the same right to your esteem and to public employments as the nobles, that any trace of serfdom and of an intermediate hierarchy between the sovereign and the lowest class of the people should be completely abolished. The benefits of the Code Napoleon, the publicity of judicial procedure, the creation of juries must be so many distinguishing marks of your monarchy."

- 19. What does Napoleon say that the people of Germany want and do not want?
- 20. What were Napoleon's views about how civil and military workers should be hired and promoted? Where in this quote does Napoleon refer to these views?
- 21. In the quotation, Napoleon addresses "the peoples of Germany." How would the nobles of various German states be likely to respond to what he is telling German peoples and why?

Extended Response

- 22. Between 1789 and 1812 France went through dramatic shifts in systems of government. The goals of Napoleon varied from the goals of the National Assembly. Choose a period of government during the French Revolution or the Napoleonic Empire and explain why it was the most influential.

STOP

House Beautiful

Incurable romantics just might rate the Taj Mahal the greatest wonder of the world. It was built by the Mogul emperor Shah Jahan as a tribute to his late wife, Queen Mumtaz Mahal, and contains her mausoleum. Work on this love letter of a marble building began in 1626 in Agra. It took 20,000 workers 22 years to complete it. For kings and queens looking to create an architectural splash, the Taj is a tough act to follow.

GETTY IMAGES

Stone Work

When Napoleon invaded Egypt in 1798, he wanted to rock their world. That hasn't happened. But now, a year later, his army has found a rock that could shake up our world. French soldiers unearthed the stone near the Egyptian town of Rosetta. One side of it is covered with inscriptions written in Greek, Egyptian as spoken in ancient times, and Egyptian hieroglyphics. No one has yet been able to translate hieroglyphics. If all three inscriptions are the same message, scholars could use the Greek words to decode the hieroglyphics. If that ever happens, this "Rosetta Stone" may be the key to understanding ancient Egypt.

VISUAL ARTS LIBRARY (LONDON)/ALAMY

VERBATIM

“So far as he is able, a prince should stick to the path of good but, if the necessity arises, he should know how to follow evil.”

NICCOLÒ MACHIAVELLI,
from his book The Prince, explaining how to succeed in politics

“Here stand I. I can do no other. God help me. Amen.”

MARTIN LUTHER,
who supposedly uttered these words to Charles II at the Diet of Worms, in refusing to back down from his criticisms of the Catholic Church

“The people of the various provinces are strictly forbidden to have in their possession any swords, short swords, bows, spears, firearms, or other types of arms. The possession of unnecessary implements makes difficult the collection of taxes and dues and tends to foment uprisings.”

TOYOTOMI HIDEYOSHI,
whose military victories in Japan's provinces allowed him to rule a unified country until his death in 1598

“If I have seen further, it is by standing on the shoulders of giants.”

SIR ISAAC NEWTON,
stating modestly that his discoveries owe a debt to the work of earlier scientists

“It will appear from everything which I have said, that it is not regulation [of the slave trade], it is not mere palliatives, that can cure this enormous evil. Total abolition is the only possible cure for it.”

WILLIAM WILBERFORCE,
leader of the antislavery movement in England, in a stirring speech given in the House of Commons in 1789

BRAND X PICTURES/ALAMY IMAGES

SCHOOL DAZE

In Elizabethan England today, most school kids focus on learning to speak and read Latin. After all, courses in universities are taught in that language. But English royalty is expected to have a more wide-ranging education. At right is a typical day for a young royal taught by a private tutor at home.

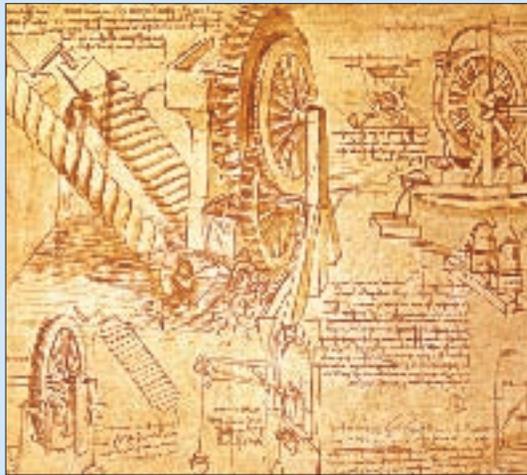

Morning (7:30 to 1:00):
Dancing, Breakfast, French, Latin, Writing, Drawing, Prayers, Recreation, Dinner

Afternoon (1:00 to 5:30):
Cosmography (the study of Earth and the heavens), Latin, French, Writing, Prayers, Recreation, Supper

THE EARLY MODERN WORLD: 1400-1800

THE ULTIMATE RENAISSANCE MAN

Leonardo da Vinci is celebrated for his paintings and drawings. But less widely appreciated is the fabulous Florentine's talent as an inventor. In his many notebooks, Leonardo has sketched and described in detail an incredible array of devices. Here is just a small sample of his output. But beware: one of these inventions is an invention of ours. Which one?

| 3. Flying ship | 7. Military tank | 11. Printing press |
| 4. Wristwatch | 8. Paddleboat | 12. Helicopter |

Answer: 4

BY THE NUMBERS

5 The number of moons first observed by Galileo through a telescope, in 1610, which proves that not all heavenly bodies orbit the Earth, as has previously been believed

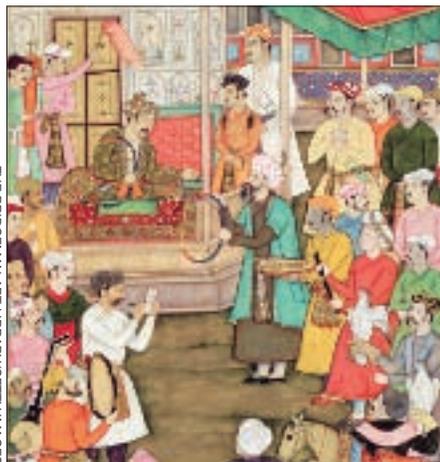

3,500,000–6,000,000 The number of people killed in the Napoleonic Wars, which took place between 1804 and 1815

224 The number of days it took Columbus to sail from Europe to the Americas and back

2,000 The number of pounds of sugar that Dutch merchants charged for one enslaved African in 1654

Milestones

DIED. AKBAR THE MAGNIFICENT, in 1605, Mogul ruler of most of northern India. This great Muslim leader set up an efficient system of government and severely punished corruption by those in power. He taxed Muslims and non-Muslims alike. A tolerant ruler, he allowed Hindus great control of their territories and so gained their loyalty.

THE BRIDGEMAN ART LIBRARY/GETTY IMAGES

FOUNDED. THE ROYAL AFRICAN COMPANY, in 1672. The British government has given the company exclusive permission to trade in slaves. The company expects to transport an average of 5,000 enslaved persons a year from Africa.

SIGNED. THE TREATY OF TORDESILLAS in 1494, by Spain and Portugal, which divides the world into two halves along an imaginary line curving north and south through the Atlantic Ocean. Every new land discovered west of the line will belong to Spain. Everything east of it will belong to Portugal, which

can now grab unclaimed areas of Africa and a small part of South America. Spain seems to have gotten the short end of the stick: It's unlikely that any valuable lands will be found beyond the Atlantic.

DISCOVERED. How blood moves through the human body, by William Harvey. In a book published in 1628, the English scientist nixes the idea that arteries pump blood. He says that the heart circulates blood and that vessels return it to the heart for recirculation. Many doctors have given Harvey's theories their heartfelt recommendation.

CRITICAL THINKING

- Analyzing Information** In what way might the Rosetta Stone be helpful to historians?
- Drawing Conclusions** Why did some people think that the Treaty of Tordesillas favored Portugal over Spain?
